## **OPEN LETTER TO THE FOREIGN REPRESENTATIVES**

### **Addressed To the World Council of Churches**

Human Rights & Social Justice does not apply to Aboriginal Peoples in Australia nor does the fact that we are Citizens of our own Country.

The impact of colonisation by the British Empire perpetuated by the Australian government and their foreign partners is an international disgrace leaving a deep scar on humanity equal to the holocaust of the 6 million Jews that were murdered during the war.

Acceptable mortality rate for sheep being sent overseas as live exports are 2.3% compare that with the acceptable annual mortality rate for Aboriginal Australians is 2.2% whilst non-indigenous Australians have a mortality rate of 0.5%.

To equal the number of avoidable Aboriginal deaths each year we would need one hundred and ten (110) Cyclone Tracey's, two hundred and twenty three, (223) Port Arthur massacres, eighty eight (88) Bali Bombings, almost three (3) World Trade Centre Attacks, twenty two (22) SIEV-X tragedies, One hundred and four (104) Ash Wednesday Bush Fires, Fifteen (15) Vietnam Wars and Five hundred and twenty, (520) Childers backpacker fires.

The plight of the Aboriginal Peoples in Australia is on Alert.

Recently the Australian Government have moved to entrench genocide into the already archaic policies of the Australian government putting us on the brink of extinction. The placement of Nuclear Waste Dumps near Aboriginal communities in the Northern Territory and the inhumane and invasive solutions to child abuse of Aboriginal children are horrifying.

The acts of child abuse and alcoholism are a learnt behaviour and have been a plight of Aboriginal Peoples from the time of dispossession enforced on missions,

settlements and reserves. These breaches were inflicted on my Peoples wearing the robes of GOD?

The Pope has apologised and reparation is due. The poverty of my Peoples must be addressed in order to survive other wise it would be an act of Genocide. The Principles of Reconciliation must comply with the conciliation between the Aboriginal Peoples, the Crown, the Churches and the Commonwealth Government of Australia. And they are;

- 1) To Recognise The Problem
- 2) To Apologise
- 3) To Guarantee It Will Never Happen Again
- 4) To Repair The Society To Condition and Quality of Life prior to colonisation

The NIHRCA observes the past and present actions by the Australian Government as a culmination of perpetuated racist policies directly related to the invasion of the British Empire in 1788. The NIHRCA also deems Australia as being a racist closed intolerant society subjecting peoples of other races and religions to persecution and intolerance...

The National Indigenous Human Rights Congress Australia are humbly seeking international intervention in full consultation with the Aboriginal Peoples in Australia to the Australian governments past and present, treatment of Aboriginal Peoples in Australia.

The National Indigenous Human Rights Congress Australia will be holding the First Human Rights & Social Justice Conference in Sydney 2007 to commence and accept nominations from Aboriginal communities to establish an Aboriginal International Delegation to act as our Aboriginal Diplomats to the Foreign Representatives that reside in Australia.

At present our presence is being ignored in our country and your advocacy of this delegation would be most gratefully appreciated.

I thank you for taking the time to read this letter and we humbly request a response to this correspondence.

Yours sincerely
